ONUR KILINÇ

Full-Stack Developer

ABOUT ME

I am a Full-Stack Developer specialized in backend development with C# and ASP.NET Core technologies, and in user-focused interface design with modern web technologies (HTML, CSS, JavaScript, Bootstrap). I have gained end-to-end solution development experience by building projects based on layered architecture, database relationships, and Entity Framework. As an analytical thinker, fast learner, and responsible professional, I focus not only on writing code but on developing sustainable and value-driven software solutions.

EXPERIENCE

► Freelance Projects

- Web-based applications developed specifically for companies.

► Persona Software – Internship (1 month)

- I actively participated in real-world scenario-based projects alongside experienced professionals in the field. I gained experience in developing sustainable and scalable solutions in accordance with modern software development principles.
